SUMMARY

Product and UX designer with experience shaping end-to-end digital experiences across web and mobile platforms. Strong foundation in user-centered design, interaction design, and motion-driven interfaces. Known for translating ambiguous problem spaces into structured user journeys, scalable interface systems, and clear interaction patterns through close collaboration with engineering and product teams.

EXPERIENCE

AI Interview Agents Platform, ***Product Designer***
Nov 2025 - Present

• Planned and refined end-to-end user experiences covering onboarding, interview execution, and results review, enhancing user satisfaction .
• Structured user flows and interface layouts to support multiple interview scenarios and user states, improving navigation efficiency by 80%.
• Collaborated with engineering teams to align UX decisions with technical feasibility and implementation constraints, reducing development time by 60%.

Cloud Computing Cell, AKGEC, ***Senior UI/UX Designer***
Feb 2024 - Present

• Drove UX strategy and interface design for digital platforms, technical events, and internal tools, enhancing user satisfaction .
• Clarified information architecture and interaction patterns for web and mobile experiences used by students and organizers, improving navigation efficiency.
• Guided and reviewed the work of 25+ designers & developers, ensuring usability, hierarchy, and consistency standards, reducing development time .

Rapidophilia, ***Freelance Product Designer & Developer***
Jan 2024 - Feb 2025
• Owned the design and development of a travel-focused digital platform, defining core user journeys, planning workflows, and booking interfaces across multiple screens.

• Built structured interface layouts and interaction logic to improve usability, navigation, and flow consistency.

• Iterated on product features and visual components based on usability feedback and testing insights.

EDUCATION

Ajay Kumar Garg Engineering College, Ghaziabad
Bachelor of Technology • ***Information Technology*** • *2023 - 2027*

LICENSES & CERTIFICATIONS

Machine learning I
Columbia University • https://badges.plus.columbia.edu/15168c47-5705-402b-ac17-cd38fce9d436#acc.lKpB9h • Issued Oct 2025

SKILLS

Product & UX Design • User experience design • user interface design • interaction design • design systems • accessibility • UX Research & Strategy • User flows • usability testing • heuristic evaluation
